

KCF115SCH / KCF120SCH INSTALLATION INSTRUCTIONS

READ ALL INSTRUCTIONS BEFORE INSTALLING THIS BIN UNIT. FAILURE TO INSTALL THE BIN CORRECTLY MAY VOID WARRANTY.

IMPORTANT INSTALLATION INFORMATION:

The stated product installation width applies to installations where the door fully clears the cabinet opening and may be hinge dependent, additional carcass width may be required.

BENCH OVERHANG CLEARANCE:

These Hideaway Compact Floor Mount models have been designed with over extension drawer runners which allow for a bench overhang of up to 75mm, allowing the bucket to come clear of the bench.

FASTENER IDENTIFICATION:

**16mm
Surefix
Screw**

Step 1 - Install the floor mount bin within the cupboard (refer to the Installation Dimensions on the back page)

- With the bin standing upright, fully extend the runners and remove the bucket.
- Close the runners fully.
- Place the unit inside the cabinet in the desired location. Secure to base of cabinet using screws provided. Mounting holes are located at the base of the mounting frame.
- If hinges are used on the door that do not allow the handle of the bin to clear the opening fully, allow an extra 10mm width.

Step 2 – Place the bin bucket into the collar

- Check that the bin opens and closes smoothly and that there is no contact between the bin and the mounting frame.
- Please leave the Care and Maintenance instructions inside the bucket for the owner.
